 Subject: Proposed Agenda for Monday, April 14, 2014 Meeting In St. Joseph, MI

Good Morning Paul, Anne, and Michael -

Attached is a proposed agenda for next Monday's meeting in St. Joseph.  
 Thank you, Paul, for setting this up and securing a location.

A couple of things I would like to note about the agenda:

- The City would like to share some background and strategies regarding the entire Portage Creek Corridor that have been in process for quite some time. We'll have a rather large map to help facilitate that discussion.
- It would be helpful to hear from Tom Bloom at USEPA-Region 5 regarding the Superfund Redevelopment Initiative (SRI) and the potential options it may afford for the Allied Superfund Site and surrounding areas
- I included an item regarding the Alcott Street Dam removal project scheduled to begin this Summer. I don't know that we need to discuss the project in any great detail but I don't want to lose track of it and the potential impacts on the overall project.

Thank you again for all the assistance.

Bruce
